The further adventures of Macro & Cato during the time of Emperor Claudius

By H. S. Wedekind

This, the 8th novel in the series, begins with the destruction of a Roman cohort by the Parthians, sworn enemies of Rome and a threat to its eastern province Syria. Centurions Macro and Cato are sent by the scheming "real power behind the throne of Emperor Claudius" Narcissus to spy on one of Rome's more ambitious generals, Cassius Longinus, Governor of Syria.

The other reviewers here have written enough about this novel to give anyone curious about it an idea of its plot. I won't add to what has already been said. Suffice it to say, this is another good read about the adventures, battles, and friendship of Roman soldiers Macro and Cato. I admit that I gave this book in the series only 4 stars instead of 5 because I think it wasn't as exciting or as full of the riveting "will they be saved in the nick of time" desperation that was so well-written by Simon Scarrow in the other books...but that's just my opinion. If you are looking for a fast paced book to take along with you to the beach on a summer's day, you can't go wrong with this. I recommend it highly. Newcomers to the "Eagle" series should first read UNDER THE EAGLE...the book that started it all. Enjoy!

Macro and Cato at Their Best

By J. Chippindale

Simon Scarrow is a teacher at a Sixth Form College. He has run a Roman History programme that takes parties of students to a number of sites and museums across Britain and I assume that while doing this he gleans lots of useful information for his books on the Roman Centurions Macro and Cato.

This is the eighth book in a series started seven years ago and Cato the young boy who left the confines of the Palace in Rome and entered the army as an Optio (second in command to a Centurion) has now matured

into a man, moulded in the image of his friend and mentor Macro. Both men are battle hardened Centurions, though Macro has a dozen years on Cato. They have fought together in Britain and other parts of the Roman Empire.

Macro and Cato become embroiled in the fight to stabilise what is to all intents and purposes a neutral Kingdom, Palmyra. As usual wherever the pair go trouble follows close behind and it is not long before the pair of them are engaged in trying to stop the forces of one of Rome's long standing enemies, Parthia, who having heard of Rome's presence in Palmyra decide it will be in their own best interest if they also send a force into the kingdom.

Macro and Cato are old friends to the readers of Simon Scarrow's books and their adventures are interesting and exciting, particularly for those interested in all things Roman and in particular the workings and make-up of the Roman Legions.

Desert Warfare against Parthians

By Alex Tang

{review contains spoilers }

Fresh after their involvement with the Jews in the previous book, Roman soldiers Macro and Cato were involved in a brand new military adventure, this time in the kingdom of Palmyra, a desert state between Roman occupied Syria and the Parthian empire. The Roman Emperor wanted Palmyra as a buffer between them and the Parthians. Thus when a civil war erupted in Palmyra with the king besieged in his oasis fortress, the Roman governor of Syria were obligated to send soldiers to help. An advance detachment of the Tenth Legion led by Macro, and auxiliaries Second Illyrian cohort led by Cato, who was acting Prefect, were despatched to help the besieged king while the main army were to follow later.

In true, Scarrow style, the story is fast moving with enough details about Roman military life to be interesting. The heavily armoured legionnaires and the lighter armoured auxiliaries were involved with fast marches, being besieged in a fortress and desert warfare against the Parthians. It is interesting to note that the Roman's technique of phalanx was not so effective against the Parthians who rode horses and were expert archers. The slower moving Romans were like sitting ducks. Apparently this unequal warfare led to the historical military loss of armies of General Crassus and later of Mark Anthony when they fought against the Parthians, many years before the time of this novel. The Roman legions have not learnt from their defeat.

In terms of character development, Cato fell in love with the ambassador's daughter and was pledged to marry when they return to Rome. Another good book for easy reading on military warfare and fighting men.
