When his lips touched mine, I felt complete. 5 DIAMOND STARS

By Cherri-Anne Boitson

He'd been a wolf, I'd been human, and the concept of forever seemed huge. I'd actually found the place that had almost become a forgotten fairy tale. OH MY WOLF!! *sniff sob sniff* I fell in love with this series the instant I heard about it, and that love has only grown deeper with each book! With each time I read and re-read a book!! Since X didn't play a big part in any of the other books, I was surprised at just how much I enjoyed getting to know Xavier & Chandra, and how much I loved them! I should know better since this is a Kristen Strassel book! ;) I cannot even begin to say just how emotional I was BEFORE starting this last

book, but I was also oh-so-very eager! Not only did I want to see what was going to happen to X, find out what Chandra's story is, and see how everything was going to play out, but to also visit with my friends again! The VERY LAST TIME we get to visit Sawtooth Forest and the town of Granger Falls! *sob* All I can think of is HOW could Kristen PAWSSIBLY end a such a FURRIFIC & FANGTASTIC & SHIFTACULAR series!?!?! And yes, I am well aware that all good things must come to an end, but for me, this was way too soon!! Okay, if the series was 300 books long I would probably say the same thing simply because it is a Kristen Strassel series! In fact, I think she is the first author that had me liking - and then loving, rooting for & living both with & as - the "enemies" or the ones you thought were the bad guys in the beginning. I was overjoyed at just how PAWFECT Kristen made this last book of the series! It not only gave updates with all of our other favorite couples while still giving X & Chandra their story, but Kristen didn't rush anything, sell it short or drag it out either. It's horrible what some of these characters have been through before we meet them, but through all of the horror emerges one helluva story for each of them that I cannot put down!! Think of the characters past as a wicked storm that took place in some other part of the world. You see the aftermath, what's left behind to try to pick up the pieces with. That is where the story starts - looking at the carnage & desolation left behind, not knowing where to begin to move forward, when all of a sudden a peek of a rainbow catches your eye. It gives you the hope that you need, so you continue to work at getting healthy, overcoming the devastation that has been your life, getting yourself to a happy & comfortable place. And then you see & feel the most beautiful rainbow that shines so bright it lights up even your darkest corners, chasing the evil shadows away and finally, FINALLY you believe & trust that the Happily Ever After in front of you, CAN be yours - IT IS YOURS!! All you have to do is say YES! While Kristen doesn't shy away from anything, she also doesn't make us LIVE the horrors that have brought the characters to the start of this series. It's all about healing, moving forward, trusting again, finding ways to love again, but what better place to start than at an animal shelter where all those adorable animals are looking for the same thing too - to find their Forever Home with someone that will love and cherish them the way they NEED & "deserve" to be loved!! Being able to show the darker sides not only helps to brighten the lighter sides and make the journey that much more worth it, but it also helps to make the story that much more richer, give it that much more depth, so that it touches you mind, body & soul! Kristen is such an amazing, fantastic, incredible and phenomenal author who combines her stellar talent with her genuine gift to create & craft these fantastic & all-consuming stories that I cannot put down, series that I cannot get enough of and characters that I love so deeply! Each book of hers that I have read, from vampires to shifters, have all made such a deep impact on me. The instant connection to the story, to the characters, pulls me in so deep that I can't tell which way is up. I not only read their stories, but experience it, live it with them, AS them! As you are reading & losing yourself in the pages, you can tell just how much Kristen loves her characters & the worlds they live & play in. There is so much attention to detail, everything flows beautifully whether it is within the story or across all of the books that make up the series. The Happy Endings may be different than you expect, but they also mean that much more to EACH and EVERY SINGLE ONE of them! Me included! So if you are looking for a story & series where you can get lost in, where you can ride shotgun with these characters on their journey to recovery and a HEA, then get your fingers walking over to your etailer of choice and get this series TODAY!! This story & series truly did COMPLETE ME!!!

awesome ending

By Rebecca

OOOOOOH I was so excited for this story. I couldn't wait for the end and to see how Kristen tied all the loose ends together. X and Chandra's story is the perfect ending and the ending I desperately wanted to have happen for the girls happened! YAY! Thank you for writing such a fantastic series. I'm sad to see it all end but loved the conclusion. I can't wait to read more of your stories.

I received an ARC for my honest review.

Sawtooth Shifters series

By Jane

OMG!!! This was the best series that I have read in a long time. Each Hero and Heroine has the best story ever. I didn't know if I was laughing or crying through most of the books. The action scenes were so intense. The love scenes were awe striking. The end of the series had me in tears more then once. Loved it!!!!
