But, with this soft documents, you can enjoy reading in the leisure also in the gaps of your works in workplace.

## Amazon.com Review

An Amazon Best Book of the Month, September 2013: What ever happened to Danny Torrance? For the 36 years since *The Shining* was first published, the answer has been left to our imaginations. Finally we catch up with Dan as his creator envisions him: a flawed middle-aged man with a tragic past -- his special gift, "shining," dulled with age and alcohol. He's "Doctor Sleep" now, a hospice worker who eases the end of patients' lives. He also happens to be the only one who can help a little girl with her own special gift. This is not simply *The Shining II*. Not only does this story stand on its own, it manages to magnify the supernatural quality that first drew us to young Danny, expanding its mystery and its intensity in a way that might even reach beyond this book into the rest of the King-iverse... and beyond. (Easter egg alert: look for the nod to King's son Joe Hill's recent book N0S4A2.) --Robin A. Rothman

## From Publishers Weekly

Iconic horror author King (Joyland) picks up the narrative threads of *The Shining* many years on. Young psychic Danny Torrance has become a middle-aged alcoholic (he now goes by Dan), bearing his powers and his guilt as equal burdens. A lucky break gets him a job in a hospice in a small New England town. Using his abilities to ease the passing of the terminally ill, he remains blissfully unaware of the actions of the True Knot, a caravan of human parasites crisscrossing the map in their RVs as they search for children with the shining (psychic abilities of the kind that Dan possesses), upon whom they feed. When a girl named Abra Stone is born with powers that dwarf Dan's, she attracts the attention of the True Knot's leader—the predatory Rose the Hat. Dan is forced to help Abra confront the Knot, and face his own lingering demons. Less terrifying than its famous predecessor, perhaps because of the author's obvious affection for even the most repellant characters, King's latest is still a gripping, taut read that provides a satisfying conclusion to Danny Torrance's story. Agent: Chuck Verrill, Darhansoff & Verrill Literary Agents. (Oct.)

## From Booklist

King, not one given to sequels, throws fans a big, bloody bone with this long-drooled-for follow-up to *The Shining* (1977). The events of the Overlook Hotel had resounding effects upon Danny Torrance, and decades later he's a drunk like his father, wondering what his battle with the "ghosties" was even for. Dan still feels the pull of the shining, though, and it lands him in a small New England town where he finds friends, an AA

group, and a job at a hospice, where his ability to ease patients into death earns him the moniker Doctor Sleep. Ten years sober, he telepathically meets the “great white whale” of shining—12-year-old Abra—who has drawn the attention of the True Knot, an evil RV caravan of shining-eating quasi-vampires, one part Cooger & Dark’s Pandemonium Shadow Show and one part Manson’s dune-buggy attack battalion. Though the book is very poignantly bookended, the battle between Dan/Abra and the True’s “Queen Bitch of Castle Hell” is relegated to a psychic slugfest—not really the stuff of high tension. Regardless, seeing phrases like “REDRUM” and “officious prick” in print again is pretty much worth the asking price. **HIGH-DEMAND BACKSTORY:** Even for a King book, this is high profile. The Shining is often considered King’s best novel, so even lapsed fans should come out of the woodwork for this one. --Daniel Kraus

Or, many also like reading this publication Doctor Sleep: A Novel By Stephen King due to the fact that they truly have to read this book. It can be the one that actually like reading.

# DOCTOR SLEEP: A NOVEL BY STEPHEN KING PDF

Stephen King returns to the character and territory of one of his most popular novels ever, *The Shining*, in this instantly riveting novel about the now middle-aged Dan Torrance and the very special twelve-year-old girl he must save from a tribe of murderous paranormals.

On highways across America, a tribe of people called the True Knot travel in search of sustenance. They look harmless—mostly old, lots of polyester, and married to their RVs. But as Dan Torrance knows, and spunky twelve-year-old Abra Stone learns, the True Knot are quasi-immortal, living off the steam that children with the shining produce when they are slowly tortured to death.

Haunted by the inhabitants of the Overlook Hotel, where he spent one horrific childhood year, Dan has been drifting for decades, desperate to shed his father's legacy of despair, alcoholism, and violence. Finally, he settles in a New Hampshire town, an AA community that sustains him, and a job at a nursing home where his remnant shining power provides the crucial final comfort to the dying. Aided by a prescient cat, he becomes "Doctor Sleep."

Then Dan meets the evanescent Abra Stone, and it is her spectacular gift, the brightest shining ever seen, that reignites Dan's own demons and summons him to a battle for Abra's soul and survival. This is an epic war between good and evil, a gory, glorious story that will thrill the millions of devoted readers of *The Shining* and satisfy anyone new to this icon in the King canon.

I am so very glad Stephen King has so many books that are available ...

By Amazon Customer

A sequel to *The Shining*, the REDRUM boy Danny is 30 years older, and a lot has happened to him since that winter in the Overlook. In typical Stephen King fashion, the story is woven masterfully into a very entertaining tale. Will Patton executes the narration flawlessly; I am so very glad Stephen King has so many books that are available in audio. For any King fans, it's a good read. It helps the story along if you know what happened in *The Shining*, but it is not absolutely critical that you have a pre-knowledge. Doctor Sleep can stand on its own just fine.

As good as anything King has ever written

By E. Marks

Like many others, my first introduction to King was the story of the Torrance family's terrible stay in the

Overlook hotel. When I heard about King continuing Danny Torrance's story, my first thought was "he's gotta be damn sure this is good, or he'd never release it. I read it while recovering from surgery and it was exactly what I needed, an escape from my own issues and a portal to watching somebody else deal with their own. Literary work can rarely do that for me, but this one transported me to another time and place. I felt like I lived alongside the characters in the events documented in these pages. Thank you Mr King for providing me with a little escape from reality yet again.

Danny Torrance is back! And the ghosts from "The Shining" have followed!

By Melanie Moore

This is the Stephen King I remember from his earlier books! I was so excited to receive this. I have trouble concentrating, but I devoured this book! I talked so much about it that my husband (who's not crazy about SK) read it and loved it too. I love that this was a sequel to "The Shining." It's not really a horror book like "The Shining," but instead, it's a companion book. If there's ever a movie, I could see Daniel Radcliffe playing Danny Torrance. You'll love it!
