Inspiring, beautifully illustrated and brings out the child in you

By erin the great

We had this book when I was a child. I have vivid memories of my father reading me the stories and of me and my siblings flipping through the pages and memorizing the illustrations. I believe this book inspired me well into adulthood, as an artist and illustrator (I have a bit of an obsession with gnomes!). I bought this book a few years ago and was pleased to find that it still held up to my expectations. Beautifully written and illustrated, this book is fun to pick up and flip through, or sit down and get lost in. The stories can be creepy or sweet. It is so imaginative and informative. Anyone wanting to learn more about gnomes, should get this book! The book is also good quality. It's a great gift for that magical friend of yours.

Delightful book with detailed illustrations and descriptive text

By Stephanie S

This is a delightful book. We had it when I was a child, and I have missed looking at the detailed illustrations and reading the wonderfully descriptive text about gnomes. Fits in perfectly with my (Swedish-based) world of gnomes (tomtar).

A wonderful world for all ages.

By SEAN P OBERLY

My mother bought this for my sister and me when we were very young. I spent hours going over and over the pages. Getting lost in the detail and fantasy filled pages was an absolute wonder. I'm buying one for our family soon.
