INTERNATIONAL CRIMINAL LAW BY KRIANGSAK KITICH AISAREE PDF

Compact yet highly informative, this pioneering book systematically analyzes international criminal law in light of the latest developments, including the jurisprudence of the International Criminal Tribunal for the Former Yugoslavia and that for Rwanda. It covers many areas, including the legal foundations of international criminal law; the substantive law of genocide, crimes against humanity, war crimes, and aggression; modes of perpetration of international crimes and grounds for excluding international criminal responsibility; and the implementation of international criminal justice before international criminal tribunals.

4 of 5 people found the following review helpful.

Great guideline to follow

By CA Waschefort

This book is an invaluable asset when used in conjunction with the Rome Statute. I used it for jurisdiction purposes to establish the ICC's jurisdiction with regards to non-signatory states of the Rome Statute. It creates a nice framework to follow, without having to cross reference all the different article in the statute. It is obviously used best with the Rome Statute at hand, when in doubt go to the original source (the Statute). But it still provides a clear, understandable and easy to use platform.

It is also a very nice source for authority on international criminal case law. Most of the most recent, most important and influential cases are cited.
