The one book you need on mentoring...

By J.D.

This book is a REALLY great resource on mentoring. It covers pretty much every angle on the subject and is an easy, quick read. It also offers tons of options for things to do for those with limited time, like myself, and caters to people of various backgrounds. It provides GREAT advice on how to deal with delicate issues that can arise in a mentoring relationship, along with how to avoid having a negative experience. Another thing I love about this book is that it puts the kids first by forcing you to take a good look at your commitment level, and then setting you up to have a positive, rewarding experience once you've evaluated your situation and decided that mentoring is something you're ready for. I, personally, was on the receiving/mentee end of a mentoring relationship for years growing up, and I owe my life to it. And thanks to this book I now feel like I am better equipped to know how to "give back." HIGHLY recommended :)

Indispensable Guide

By Nickie

For anyone considering becoming a youth mentor, this book is a must-read. A complete how-to guide, it covers everything from the basics of what a mentor is and isn't to more complex issues like dealing with a mentee's lifestyle and behavioral issues/choices that you might not agree with. This book challenges adults to think about whether or not they would be a good mentor, prepares them for the time and skills that will be necessary to succeed and then provides a wealth of suggestions to ensure positive experiences and outcomes for both mentor and mentee. It's beautifully written, easy to read and the kind of resource you'll return to again and again as your mentoring journey unfolds. Highly recommend.

Excellent Guidebook and Thoughtstarter

By Philanthropy matters

I have always believed in giving back, and bought this book as a way to re focus how and where I spend my time when it comes to philanthropy. It was not only well written but really gave me some good ideas that I can put into practice in my own community. The author's first hand experience was something that I thought lended to the credibility of this book, and because she's been able to have such an impact, I feel as though these ideas aren't just ideas thrown out, but lessons from someone who has "walked the walk." I am going to recommend this book to the leader of our community youth and family services in hopes that he will share with board members.
