One little two little three little Indians, four little five little six little Indians, seven little eight little nine little Indians... One million little Indian entrepreneurs.

These are the stories of the little people who make up the Big Idea of Dharavi.

A slum of energy, enterprise and hope.

Where every hand is busy, every head held high.

Where people could be miserable but choose to be happy.

A choice each of us can make.

Respect For Those Who Live In Slums

By Tom Adam

More than anything else this book shows another way to look at those who live in the slums. That way is with respect as viable, productive human beings who can and want to contribute positively to society when given the opportunity do do and when their needs are met as they undergo the transition and growth process. A lot should be taken from this book and the numerous organizations, individuals and research studies which are mentioned in this book when it comes to redeveloping poor areas and revitalizing inner cities around the world.
