Welcome to ROGUE PLANET™! A derelict world where you can experience true sci-fantasy gaming that allows you to fight skirmishes that focus on the cinematics and action of the genre without skimping on the tactics. It features: -ROGUE Die Mechanic -PAWN System -FX Physics Engine -Skill Based Combat -ENERGY Expenditure System -No labor intensive bookkeeping! -No measuring! -Custom point based force creation -Equipment and Upgrades -Sorcery and Psionics -Multiple game levels -Scenarios INNOVATIVE SYSTEMS ROGUE DIE™ | The ROGUE DIE mechanic allows you to counteract your enemies' actions during their turns and fuels your powered weapon, powered armor, and psionic force weapon abilities and effects. Counter-actions include things like: dodging, returning ranged fire, counter casting, and intercept maneuvers. PAWN SYSTEM™ | The innovative PAWN system provides a unique mechanism for representing your leader's retinue and followers and makes for dynamically changing battles as your hero loses abilities, power, and support during a game. PAWNS are also a prime feature of the campaign system and allow a leader to gain new abilities, change strategies, and evolve as an adventure progresses. Pawns include: ammo grunts, bots, expendables, familiars, intimidators, and brutes [and many more!]. Who will follow you into battle? FX | The FX Physics Engine™ powers the epic throws, collisions, and staggering blows on ROGUE PLANET. It also gives players the option to make the battlefield more interactive with the implementation of destructible, throwable, and treacherous terrain types. Want to throw an orc in powered armor halfway across the battlefield into a group of goblins and see what survives? FX makes it happen! ENERGY | The ENERGY expenditure system allows you to simulate the strength of your force, powers the various armor ratings of your troops, and gives you the option to keep your units in play when you want or need to- but there's always a cost! STREAMLINED GAMEPLAY GOT SKILLS? | Actions on ROGUE PLANET are a measure of skill. You'll find no 'buckets-of-dice' or straight-line probabilities here. The interactive skill check system means that all players are constantly involved in the game, and you'll need to work for the best possible tactical advantage or risk having your opponent counter you and take advantage of your failures. NO LABOR INTENSIVEBOOKKEEPING! | There are no hit point boxes, extensive tables, or detailed stat tracking on ROGUE PLANET™. Not only that, but there are no chits, tokens, spell, psionic, or effect markers littering the table either. The focus is always on the miniatures, terrain, and action on the table. MEASUREMENT? | There are no measuring sticks, grids, rulers, centimeters, or inches used for the game. Measurements are based on the relative position of units, line-of-sight [LOS], terrain, and the in-game FX Physics Engine™. CREATE WHAT YOU WANT CUSTOM FORCE CREATION | Point based unit creation system gives you total control to bring your force to the tabletop in the way you envision it. EQUIPMENT AND UPGRADES | There are over 30 different types of base weapons, armor ratings, and enhancements in the game that be used by themselves to equip your troops or combined with one another to create almost limitless supply of custom combi-weapons. These upgrades include: axes, blades, lances, blasters, heavy launchers, powered armor, powered fists, gravity hammers, chained blades, psionic force weapons, and grenades. SORCERERS AND PSYCHERS | What sci-fantasy world would be complete without the inclusion of sorcerers and psychers. Heroes on ROGUE PLANET can be either [or both!] and wield powers like: psionic throw, anchor, time stop, magic missile, blink, deflection, and more. May the psionic force be with you space wizard- always.
