Not Quite Basics of Poker (and not beyond)

By A. Hill

This could have been called The Not Quite Basics of Poker (and not beyond) - I like The Maven, have followed him for years, but this is not what he should be putting out there, he's most definitely better than this. Fair to say he missed the flop with this hand.

Why play poker to LOSE?! Read this now to help you excel...

By Geoff

Very easy read with important, imperative information. Don't you just hate reading a 300 page poker book to pull 1 or 2 "nuggets" out. We'll this book is under 100 pages and almost every piece of advice is gospel. I've been playing poker for 5+ years now and wish I'd had this reference so I didn't have to learn the hard way! The author also shares his contact information for those that have follow up questions. Looking forward to more!
