Moment of history and soul

By Ju Huang

This book, which was published in the 1930s brought me back to the old times when I read it in 1999. The author was a scholar and politician of that time, and he recorded the common thoughts and understandings about Chinese arts and culture of that time. Nothing in this book was new to today's readers, but everything in this book was clearly stated in a way you seldom encounter today. The author had an impressive ability in handling Chinese cliché into English, which made reading this book enjoyable.

recommended for Chinese readers longing for good old days. Another book by this author on Chinese calligraphy is more highly recommended. That's a five star one according to me.

The real thing!

By L. D. Rafey

I would rank Chiang Yee as the Asian equivalent of our Western E.H. Gombrich. I did not think I would learn very much from this ancient text but was rather more interested in adding to my "Silent Traveler" collection. HOWEVER ... I was unable to put the book down and learned something new on every page! Chiang is a marvelous writer, verging on the poetic in many instances, and manages to fill the text with as much psychological insight as facts. His insight and his knowledge of history in conjunction with his intimate knowledge of the art (something most critics lack) add up to a solid educational event. Virtually every aspect of the art is covered in some detail here and some wonderful examples are included. Whether you are an expert or a novice, this book is a must.
