Adventurous

I'm actually in the middle of reading the book. I have purchased this book immediately after finishing part one. Maybe a little hard to believe, but if you enjoy a bit of mystery and adventure as much as I do, you will definitely like this book. Please read part 1 first.

Still another example of very poor editing. Looks like the author used a spell checker rather than having someone actually read/edit the book. I rather enjoyed the book but hated the editing!

The thrill ride is again in motion and the secret codes abound! Bring it on Vinny!

By L. White

Major Stone and his elite Omega Sector team continue their search to find the Life Crystals that will save the Earth from certain disaster. This is the second installment to The Nostradamus Revelation by Vincent Pauletti. The thrill ride is again in motion and the secret codes abound with all the information you need to get to the next location before the assassins do! From a tomb in the Philippines, to the Mexican jungles, across a molten river, and through Piranha infested waters, Omega Sector forces battle almost unbeatable odds to obtain the Life Crystals for the final ceremony to save the Earth!

The history you absorb, during your reading of this fast paced thriller, is amazing and wonderful. (Take the time to look up some of these places, after you've finished the book, to see some very interesting places.) I admit the editing could have been better, but for me it did not interfere with the story. I love this series!
