Here are 62 masterly demonstrations of the basic strategies of winning at chess, compiled and annotated by one of the game's most admired and respected writers. Each game offers a classic example of a fundamental problem and its best resolution, described and diagrammed in the clearest possible manner for players of every level of skill.

As Irving Chernev observes in the Introduction, "Who will doubt the tremendous power exerted by a Rook posted on the seventh rank after seeing Capablanca's delightfully clear-cut demonstration in Game No. 1 against Tartakower? And who will not learn a great deal about the art of handling Rook and Pawn endings (the most important endings in chess) after playing through Tarrasch's game against Thorold?"

Chernev's lively and illuminating notes on each game reveal precisely how Capablanca, Tarrasch, and other masters—Fischer, Alekhine, Lasker, and Petrosian among them—turn theory into practice as they attack and maneuver to control the board. Readers will find their techniques improving with each lesson as Irving Chernev dissects winning strategies, comments on alternate tactics, and marvels at the finesse of winning play, noting at the end of his Introduction: "I might just as well have called this collection *The Most Beautiful Games of Chess Ever Played*."

For Lover's Only

By A.J. Goldsby I

Easily one of the best books ever written. This is one of the first books I purchased over 30 years ago. I am sure it helped start me on the road to Chess Mastery.

Chernev, like Reinfeld, did NOT write chess books to impress other Chess Masters. He wrote books simply and with great care. He also put his tremendous love of the game into this book.

I simply cannot convey what a wonderful book this is. This book will especially appeal to the average player, especially someone who wants to improve his game.

I usually don't rave about books. This is an exception.

Here is what I say about this book on my web site:
