After getting this brief description, ideally you could download one and also start to read [The New Topping Book By Dossie Easton, Janet W. Hardy](#) This book is quite simple to check out each time you have the free time.

THE NEW TOPPING BOOK BY DOSSIE EASTON, JANET W. HARDY PDF

Two decades ago, this book (and its companion volume, *The New Bottoming Book*) began teaching tens of thousands of people the joyous arts of BDSM topping and bottoming - not just "how-to," but "why-to"... the insider details of emotional support and ethical interaction during kinky play. Since then, the growing popularity of BDSM, and the blossoming of the Internet as a source of information and connection, have created a whole new universe of possibilities for players. Now, the completely updated revised *New Topping Book* gives even more insights and ideas, updated for a new millennium, about how to be a successful, popular player! "Easton and Hardy tackle the Top... and bring that elusive critter down neatly and with a certain flair. This is good stuff, important stuff... an excellent guide to topping, both for the rank novice and for the player who just wants words to put to all the thoughts and feelings that have resisted categorization." - Laura Antoniou, *Sandmutopian Guardian*

You mean I'm not crazy?

By Jaina A Davis

Who would think that being tied up and beaten could be the most pleasurable and empowering experience of one's life? Easton and Hardy's persuasive enthusiasm convinced me.

Concise chapters map out a sensible and intuitive path to bring a novice from fantasy to reality. The warm, personal style is unmistakably the hallmark of Greenery Press - as is the focus on ethics and infinite possibilities. I was especially moved by the underlying message that - rather than recklessly throwing yourself at someone's feet - to be an informed and thoughtful submissive is a rare and valuable gift to a lucky dominant.

For anyone who has nervously suppressed their fantasies of being swept away by a Powerful Creature or used mercilessly by a Stern Master, this book simultaneously reassures, encourages and inspires.

An excellent book

By A Customer

This is an excellent book for anyone interested in the bottoming part of BDSM. It encourages, informs, and empowers bottoms. The authors make it plain that: No, you are not crazy. No, bottoming does not mean that you are powerless or weak. No, you are not alone. Yes, it is ok to want this!

This is not a book on how to play, per se, but rather a book on how to be a strong, powerful bottom who can enjoy exploring that part of themselves. I recommend reading this book along with a book that explains how to get started, such as *SM 101*, by Jay Wiseman.

Good information, but may disappoint 24/7 lifestylers

By Aletheia Knights

Every now and then, over the course of the year and a quarter that I've been exploring BDSM, I've stumbled across a perfect gem: an author who voices my own unspoken thoughts more clearly than I ever thought possible. Having spent over two decades ashamed of my own need and ultimately isolated from my sexuality, I cannot overstate the value of these little glimpses into other minds that think like mine. Polly Peachum's lovely essay "The Fragrant Dust" leaves me exhilarated and stunned with recognition. Miria Hunter and Yaldah Tovah have written some of the finest essays you'll ever read on the dynamics of consensual Master/slave relationships and the psychology of submission.

Perhaps it was a mistake to pick up "The New Bottoming Book" looking for more of the same. After all, such a perfect meeting of the minds is a rare thing. I've learned from and enjoyed plenty of articles that weren't entirely on my wavelength. But here was a whole book on the experience of bottoming, a book that professes on page 1 to be "a celebration of sensational submissives and marvelous masochists . . . of those who love to struggle and serve and scream and submit . . . of bottoms, submissives, captives, slaves, pets and all the beautiful recipients who ever peopled a kinky imagination." I hoped that here was a book that would help me understand my own sometimes mystifying needs and desires.

And there were some passages in the book that did exactly that. There's a list in Chapter 2 of emotions that a person might wish to experience in-scene, and along with such expected items as "helplessness," "lust," "humiliation," and "being nurtured," I was pleasantly astonished to discover "martyrdom," "pathos," "resentment," "sadness." Rarely, if ever, had I seen such emotions treated as potentially normal and desirable parts of the BDSM experience, and yet they figured often in my fantasies as part of an essentially cathartic psychodrama. Obviously, seeing as how Easton and Hardy saw fit to include them in the list, there are other people who have the same needs I do to venture into the realm of quiet, dark emotions.

Unfortunately, such moments of joyous connection were rare. Through most of the book I had the disconcerting feeling that I was waiting for something that was just out of reach, promised and even sampled, but never actually attained. I wanted to read about the psychology of submission, while the authors seemed more focused on the erotic thrills of play. Easton and Hardy seem to expect their readers to engage in scenes of limited duration, with a variety of partners, for the purpose of mutual erotic gratification. If you're involved in, or looking for, a relationship based on total power exchange, internal enslavement, and/or consensual nonconsent, you won't find much of use in these pages beyond what you'd get in any general-interest BDSM book (there are a handful of references to 24/7 D/s in these pages, but ultimately nothing of substance). If you enjoy playing at being a slave, you'll love this book. If you really want to BE a slave, the constant focus on YOUR rights, YOUR power, YOUR gratification, may be more than a little disconcerting.

I could easily have given this book four stars, in spite of its flaws. After all, it is presented, according to the title at least, as a guide to bottoming, not to submission or enslavement. There are far more play bottoms or part-timers out there than there are dedicated 24/7 lifestylers, and Easton and Hardy might well be commended for sticking to what they know rather than trying to tackle a topic with which neither has any particular experience (both authors are switches, and Hardy actually leans more to the "top" end of the spectrum). However, since one of the purposes of this book is to help novice bottoms accept themselves, I couldn't quite forgive a couple of brief passages that actually seem to disparage 24/7 relationships. On page 30, Easton and Hardy tell us that "[t]he desire you may have to be utterly bottom, to be operated by and operated on by another, to be very small, to be owned . . . is not reasonable." I found this very disturbing, as did several of my friends. After struggling for years with this strange and shameful desire to be truly and profoundly owned, the last thing we need is to be told by our fellow BDSM'ers that we're irrational and

unreasonable. I read this sentence with only a twinge of uncertainty and a great deal of annoyance, but if I had picked up this book a year earlier, I likely would have come away from it in despair that I was disturbingly deviant even by the standards of folks who like to wear leather and hang out in dungeons.

If you are a play bottom, this might be the most useful book you'll ever read. If you're a slave at heart, however, although you may find a few valuable nuggets scattered among these pages, I definitely recommend that you begin your literary explorations elsewhere.
