This book did not cost much because it was quite used, but it was still in a very usable condition and was priced adequately for such conditions. This is for a political science course I am taking and it is serving it's purpose well.

Read one nonfiction book this year (and make it this one)

By Jesse K. Richards

This is the most enjoyable and concise way to get a basic primer of world events and even all of recent history. This should replace textbooks in high schools. The graphics are compelling and break down all sorts of conflicts. The writing is brief, fair, and brutally honest. If I can look at two pages of colorful maps and suddenly understand the ten-year Yugoslav conflict, this is a well-done book.
